XP Experience Simulator

Do you want to simulate your Evatec Equipment? Would you like to train your operators on a software simulator instead of directly on the tool? If so, this solution will be perfect for you.

<p>Your need</p>	<p>Depending on your individual situation you may face one of the following needs:</p> <ul style="list-style-type: none"> ▪ Enhancing capability of your operators, technicians, or process engineers by training them first on the XP Experience simulator ▪ New software updates can be shown to you in a demo to verify new software functions on the simulator first ▪ Enabling offline recipe development ▪ Testing SECS/GEM communication between your host and our simulator
<p>Our service</p>	<p>The Evatec Equipment Simulator brings you the entire XP Experience of your Evatec System on your desktop. What you will get from us:</p> <ul style="list-style-type: none"> ▪ Licenses and software of the simulator to run your specific equipment software ▪ Installation instructions ▪ Service & support
<p>Your benefit</p>	<p>The benefits of the equipment simulator go far beyond safety. Take a look at how you can benefit from this solution:</p> <ul style="list-style-type: none"> ▪ Simulate the functions and features of your existing equipment software ▪ Have instant access 24/7, leaving the real tool available for production ▪ Zero ongoing maintenance cost ▪ Set up and test multiple configurations ▪ No network/ internet connection required
<p>Want to know more?</p>	<p>We offer the XP Experience Simulator as a stand-alone service for our latest generation of sputter and evaporator tools.</p> <p>Contact us now if you want to find out more and detailed information.</p> <p>You can contact your local sales and service office on different channels either at https://evatecnet.com/about-us/sales-service/ or send an email to our global service office at cs.global@evatecnet.com</p>
